## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION*****Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 27-30, 33-39, 42-43 and 46 are rejected under 35 U.S.C. 102(b) as anticipated by WAND et al. (US Pat. 5,525,388).

Art Unit: 3731

As to claims 27, 30, 33 and 42, WAND (Figs. 4-5 above; column 3, lines 14-27; column 4, lines 7-20) discloses balloon/parison 30 having thinned waist and cone portions to be blown to balloon 12 having constant thickness over substantially the entire length of the balloon. Balloon/parison 30 has ground surfaces because the waist and cone portions of balloon/parison 30 are thinned by machining, abrading or other suitable means (see WAND, col. 2, lines 45-53).

As to claims 28-29, 43, see balloon/parison 30 above (or balloon 12 before being blown).

As to claims 34-39 and 46, see balloon 12 above (or balloon 30 after being blown).

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

1. Claims 41 and 45 are rejected under 35 U.S.C. 103(a) as being unpatentable over WAND et al. (US Pat. 5,525,388).

WAND discloses a balloon with substantially every limitation as recited in the claims, except for the balloon has a thinned portion formed by a chemically etched surface. However, WAND (col. 2, lines 45-53) discloses machining, abrading or a suitable means to provide a thinned portion of the balloon. Since chemical etching is a well known process for accurate removing material of an polymeric object, it would have been obvious to one of ordinary skill in the art at the time the invention was made to use a chemical etching process to remove a cone or waist portion of the balloon so as WAND balloon wall thickness will be constant substantially over the entire length of the balloon as desired.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
